EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Delete claims 11-20 (non-elected without traverse).

In claim 21, replace "if" with -is- (obvious typographical error).

Examiner's Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The prior art of record and, in particular, DE 19636123, does not disclose nor teach said oven as specifically claimed wherein same includes a grease removal conduit and drain with an end extending below a predetermined fluid level in a reservoir said reservoir further containing a fluid having a density different than that of grease. It would not have been obvious to one having ordinary skill in the art at the time of the invention to have modified any of the prior art of record to include such elements in the context of an oven as specifically claimed as the prior art of record removes grease by means which do not require contact of said grease with a fluid having a different density in such manner as to facilitate more efficient removal of said grease while avoiding release of flavored gases to the surrounding atmosphere.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
